Editor's Note

Thirteen edition of Discover MAGIC, the official newsletter of Marathwada Accelerator for Growth and Incubation Council (MAGIC) provides information of activities executed by MAGIC during the July - September 2024.

Dear Readers,

Welcome to the 13th edition of Discover MAGIC, where we continue our journey of fostering innovation, entrepreneurship, and growth in the Marathwada region. In this edition, we celebrate the remarkable achievements and ongoing initiatives that are shaping the future of our startup ecosystem.

The recent workshop in Chhatrapati Sambhajnagar brought together key stakeholders from Maharashtra's automobile sector to discuss the critical transition from Internal Combustion Engine (ICE) vehicles to Electric Vehicles (EVs). With insightful contributions from industry leaders, we are paving the way for our Micro, Small, and Medium Enterprises (MSMEs) to adapt to these changes and seize new opportunities.

We are particularly excited to highlight the successful launch of the MSME IDEA Hackathon 4.0, which aims to channel the innovative energies of our youth. This initiative not only aligns with the Prime Minister's vision of "Viksit Bharat 2047" but also emphasizes our commitment to nurturing grassroots innovation.

In addition, MAGIC is proud to announce our participation in the GENESIS program, aimed at supporting startups in Tier-II and Tier-III cities. This initiative exemplifies our mission to bridge gaps in funding, mentorship, and infrastructure, ensuring that no innovative idea goes unrecognized.

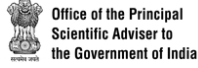

We also celebrate the milestones achieved by our incubated startups, including significant patents and international recognition, showcasing the transformative impact of our programs. Our partnerships with institutions like JESA and STPI are strengthening the entrepreneurial landscape, enabling knowledge exchange and collaborative growth.

As we reflect on the events of the past few months, we remain grateful to our mentors, partners, and stakeholders who contribute to the vibrant ecosystem at MAGIC. Your unwavering support is vital in empowering the next generation of innovators and entrepreneurs.

Thank you for being a part of our journey. Let's continue to inspire and uplift each other as we work towards a brighter, more innovative future.

Warm regards,

Mr. Ashish Garde

Sunil Raithatha, MAGIC Director, emphasized the importance of the bond between customers and service providers, while also sharing MAGIC's unwavering commitment to fostering new innovators.

MAGIC INITIATIVES

Workshop on Exploring a Just and Inclusive EV Transition for Maharashtra's MSMEs.

Key stakeholders from Maharashtra's automobile sector convened in Chhatrapati Sambhaji Nagar on 24th September to address the challenges and opportunities posed by the state's transition from Internal Combustion Engine (ICE) vehicles to Electric Vehicles (EVs). The workshop, organized by WRI India in partnership with the Marathwada Auto Cluster, CMIA, MASSIA, DECPL, MAGIC and Laghu Udyog Bharati, focused on the impact of this shift on the MSME that dominate the industry.

A significant announcement was made during the workshop regarding the establishment of the 'Maharashtra EV Forum,' aimed at developing the state's '2030 EV Vision.' Priyal Shah from WRI India stated during the programme.

Ashish Garde, Director of MAC and MAGIC, delivered the inaugural address, urging MSMEs to prepare for the EV shift. "The transition to EVs is crucial, and MSMEs must prepare for this shift. Building the necessary EV ecosystem is vital, and OEMs can play a pivotal role by actively engaging with auto component manufacturers in the MSME sector," he said.

Ashish Garde also highlighted the significant scope for startups in the EV sector, urging OEMs to facilitate connections with these emerging companies for collaborative development.

CMIA Treasurer Mihir Saundalgekar presented critical insights on the EV market, noting, "Two-wheelers dominate the EV sector in India, while the four-wheeler and freight vehicle segments remain relatively low. Notably, 70% of the total cost of EVs is due to batteries, motors, controllers, and battery management systems (BMS). We must invest in local research to reduce reliance on foreign source, he added.

The workshop featured contributions from various industry leaders. Shivam Soni from Ather Energy shared exciting plans: "Actual production from the Ather project will begin by May 2026, focusing on new products tailored for the Indian market, including a battery line and dashboard units."

Ranjit Bhelke, CEO of Kinetic Communications Ltd., highlighted the importance of collaboration: "MSMEs must enhance their testing, validation.

MAGIC INITIATIVES

A remarkable session unfolded at My Skill, My Business, organized by MAGIC Business Incubator SME Accelerator in collaboration with Govt ITI Chhatrapati Sambhaji Nagar.
